Manufacturing Site Details

VITAL[®] certification applies on a site by site basis. The applicant for certification to the VITAL Standard must be an individual food manufacturing site involved in the manufacture of packaged product, bulk product, or a combination thereof. Food corporations with multiple sites cannot be collectively certified.

Please complete a separate application form for each manufacturing site.

Section 2: Certification Details

Preferred audit timeframe

The timing of the initial certification audit is by agreement between the manufacturing site and their contracted Certification Body. The initial VITAL certification audit can either be an extension of an existing food safety management standard (FSMS) audit, or a stand-alone audit conducted at any time during the currency of the manufacturer's existing FSMS certification.

Products to be audited

Please complete the table for the products to be audited (attach more pages if necessary)

Product Type (please tick)

Packaged product	Bulk product	Combo of packaged and bulk product
------------------	--------------	------------------------------------

Product 1	Product Name:				
	Product Code:				
	Product Size:				
Product 2	Product Name:				
	Product Code:				
	Product Size:				
Product 3	Product Name:				
	Product Code:				
	Product Size:				

Current certifications

List all certifications currently held that apply to the site and products to be audited, including GFSI recognised FSMS, industry and retailer certifications.

GFSI recognised Food Safety Management Standard (FSMS)

Please detail the GFSI recognised food safety management standard (FSMS) that includes allergen management that will be used to support the VITAL Standard.

Once complete send a copy to both:
